

zTerm Of Reference (TOR)

The 2nd International Conference on Economy, Social and Humanity (ICESH)

I. Background

In an era where global challenges are increasingly complex and interconnected, the need to create sustainable solutions has become more urgent. Phenomena such as extreme climate change, highlighted by the latest report from the Intergovernmental Panel on Climate Change (IPCC) in 2021, show that global temperatures have risen approximately 1.1°C since the pre-industrial period. If no significant action is taken, this rise in temperature could reach 1.5°C by 2030 (IPCC, 2021). This potentially leads to more frequent and severe natural disasters such as floods, droughts, and wildfires, impacting the lives of millions worldwide.

Additionally, rising social inequalities pose a serious concern across all nations. An Oxfam report in 2022 revealed that the top 10% of the world's wealthiest individuals control over 76% of global wealth, while more than 2.5 billion people live on less than \$2.50 a day (Oxfam, 2022). This crisis not only exacerbates economic conditions for many individuals but also generates social tensions that could lead to mass migration due to instability.

In addressing these evolving global challenges, the relationship between economic development and law is becoming increasingly relevant. Amid efforts to achieve the Sustainable Development Goals (SDGs), economic policies and legal regulations interact in creating environments conducive to sustainable growth. For example, changes in international trade policies and investment regulations significantly affect economic stability, which in turn impacts social welfare (Rodrik, 2018).

Moreover, environmental law and economic policy are now nearly inseparable. The demand for supporting sustainable business practices, meeting environmental standards, and protecting natural resources requires a robust legal framework. International agreements, such as the Paris Agreement, establish parameters that nations must follow, influencing economic policies at both national and local levels (United Nations Framework Convention on Climate Change [UNFCCC], 2016). Thus, the integration of economic decisions and synergistic legal frameworks is crucial for achieving development that is not only economically efficient but also just and sustainable for all members of society.

Amid these challenges, we proudly present the “International Conference on Economy, Social, and Humanity (ICESH)” with the theme “Sustainable Development Goals: The Intersection of Economic Policies and Environmental Law.” This conference aims to provide a platform for academics, professionals, and stakeholders to share ideas and explore innovative solutions integrating economic policies with environmental law.

The discussions at this conference will be an opportunity to respond to emerging challenges and ensure that every step towards sustainable development is inclusive and maintains harmony between humanity and the environment. Through a series of presentations, panel discussions, and interactive workshops, participants will gain deep insights that focus not only on theory but also on practical applications.

II. Objective

- a. Exploring the Integration of Economic and Environmental Policies: Engage in in-depth discussions connecting economic policy with environmental law to create sustainable solutions for the challenges faced today.
- b. Empowering Young Scholars: Provide a platform for presenting your research and building networks with academics and practitioners committed to sustainability and social justice.
- c. Gaining Global & Practical Insights: Discover innovative approaches from various perspectives that will help you understand how economics and law can support each other in achieving Sustainable Development Goals.
- d. Producing Impactful Policy Recommendations: This conference aims to present evidence-based recommendations that stakeholders can implement, aiding in designing policies that support economic growth and environmental protection simultaneously.
- e. Encouraging Evidence-based Research Publication: Support efforts to publish your research findings in leading indexed journals, allowing your important contributions in economic policy and environmental law to significantly impact academic literature and best practices in the SDGs.

III. Date and Venue

The 2nd International Conference on Economy, Social and Humanity, on July, 28 – 29, 2025. The venue of the 2nd International Conference on Economy, Social and Humanity in the Malahayati University, Bandar Lampung, Indonesia.

IV. Keynote Speaker and Plenary Speaker

- a. KEYNOTE Speaker: (UPM, the speaker is being confirmed)
- b. PLENARY Speakers:
 - 1) Assoc Prof. Dr. Fajar Gustiawaty Dewi, S.E., M.Si., Akt. (University of Lampung)
 - 2) Prof. Dr. Nunung Rodliyah, M.A. (University of Lampung)
 - 3) (University of Utara Malaysia)
 - 4) (University of Putra Malaysia)

V. The Conference Content

Legal Field:

- 1) Environmental Law and Climate Change: Global Responsibilities
- 2) Legal Protection for Biodiversity in the Modern Era
- 3) Green Regulations in International Trade Policies
- 4) Sustainability and Human Rights: Legal Integration
- 5) Legal Innovations for Renewable Energy: Challenges and Solutions
- 6) Corporate Legal Responsibilities in the Context of Climate Change
- 7) Environmental Licensing: Processes and Challenges in the Digital Era
- 8) International Agreements on Plastic Pollution: Towards Global Solutions
- 9) Social Justice in Renewable Energy Regulation
- 10) Natural Resource Conservation Law: From Theory to Practice

Management Field:

- 1) Sustainable Supply Chain Management: Best Practices
- 2) Business Innovations for a Circular Economy: Models and Strategies
- 3) Sustainable Leadership: Inspiring Change
- 4) Data and Technology for Sustainability: Current Trends
- 5) Collaborative Economy: Building Partnerships for SDGs
- 6) Sustainability Reports: Transparency and Accountability for SDGs

- 7) Digital Transformation in Sustainability Management
- 8) Stakeholder Engagement in Environmental Decision-Making Processes
- 9) Green Marketing: Changing Consumer Perceptions for Sustainability
- 10) Sustainable Innovation Management: Creating Value in Business

Accounting Field:

- 1) Sustainable Financial Reporting: Integrating ESG Metrics
- 2) The Role of Accountants in Promoting Sustainable Business Practices
- 3) Impact of Climate Change on Financial Risk Assessment
- 4) Green Accounting: Measuring Environmental Costs and Benefits
- 5) Sustainability Audits: Ensuring Compliance with Environmental Standards
- 6) The Future of Accounting: Technology and Sustainability Integration
- 7) Reporting on Social Impact: The New Frontier for Accountants
- 8) Taxation and Sustainability: Exploring Green Tax Incentives
- 9) Accountability in Sustainability Reporting: Challenges and Best Practices
- 10) The Influence of Corporate Governance on Sustainable Financial Practices

VI. Participant

This activity is specifically aimed at students from the Faculty of Economics and Management & Faculty of Law at Malahayati University, Bandar Lampung, and is also open to the general public, nationally and internationally.

VII. Timeline

- a. Abstract Submission : June 30, 2025
- b. Full Paper Submission : July 1, 2025
- c. Conference Payment Deadline : June 30, 2025
- d. Conference Date : July 28 – 29, 2025

VIII. Payment Fee

- a. Presenter (External) : \$12.15
- b. Presenter (Internal) : \$ 6.08
- c. Poster (Internal) : \$ 6.08
- d. Poster (External) : \$ 9.12

e.

f. Participant (External) : \$ 6.08

g. Participant (Internal) : \$ 4.56

IX. Facilities

a. Seminar Kit

b. Certificate

c. Snack

RUNDOWN THE 2ND INTERNATIONAL CONFERENCE ON ECONOMY, SOCIAL AND HUMANITY (ICESH) UNIVERSITAS OF MALAHAYATI 2025

28 July 2025	
DAY 1	
Time	Event
07.30-08.00	Preparation
